

## System Integration and Technical Support Engineer

Appear TV is rapidly growing its client's base and therefore needs to expand the customer support team with an enthusiastic and service minded **System Integration and Technical Support Engineer**. Our company provides carrier-grade solutions that enable broadcasters and operators to deliver professional quality video and audio services. Our customers are Telco and Cable operators who expect a high level of technical expertise from their equipment providers. Your main responsibility will be to ensure Appear TV products work flawlessly within the customer's environment. The job involves close cooperation with our development team.

Degree qualified: Relevant higher education (BSc., BEng, Ing.)

Responsibilities:

- System installation, configuration and testing
- Customer support
- Remote maintenance and diagnostics
- Upgrading of deployed products
- Demonstration of Appear TV equipment
- Technical training on Appear TV products
- Organizing and building of stands at tradeshow
- Testing of new products and new SW releases
- Responsible for manuals

You have a positive attitude; want to work with an experienced team, developing tomorrow's technology and products. Fluency in English is a requirement, and additional language skills are advantageous. Travelling should be expected.

We offer:

- An exciting place to work with humour and energy
- State-of-the-art products and technology
- Inspiring customers and projects
- International environment with world wide customer base
- Professional career development
- Competitive terms

Professional experience would be advantageous but not essential. Send your resume and application clearly marked to [jobs@appeartv.com](mailto:jobs@appeartv.com) or for further information call Thomas Lind at +47 2411 9020.

**APPEAR TV** is based in Oslo, Norway. The company produces world-class equipment that enables operators to deliver professional broadcast services to millions of users around the globe. The company is dedicated to developing reliable, revenue-generating and innovative solutions for operators looking to deliver real-time content to the home.
