

Product Test Developer (IPTV) – ‘Assure the future’

You will be a part of our product test development team. You will be working with internally developed products and solutions for transporting Video over IP and cable centric networks. This is a dynamic position which will allow you to gain experience with the entire Appear TV product line.

Qualifications: Bachelor of Science/engineering or other similar education with relevant experience.

You possess skills/interests in the following areas:

- to develop test strategy for the different products and functionality
- to develop test for manufacturing process
- to implement test programs/scripts on Linux or NI LabView/TestStand
- to integrate with leading edge test equipment
- to lead/participate in the company's test program and release testing
- to drive quality assurance
- ability to support end customers

You have a positive attitude and want to work in an international environment. In addition technical interest and knowledge fluency in English is a requirement, and additional language skills are advantageous.

We offer:

- An exciting place to work with humour and energy
- State-of-the-art products and technology
- Inspiring customers and projects
- International environment with worldwide customer base
- Professional career development
- Competitive terms

Professional experience would be advantageous but not essential. Send your resume and application clearly marked to jobs@appeartv.com or for further information contact Damian Hatwell (damian.hatwell@appeartv.com).
