

Exciting summer jobs – Want to work in the forefront of broadcasting technology?

Join our development team for an exciting summer, developing and designing solutions for transporting Video over IP centric networks. You are a highly motivated student in the second half of your studies at university. You have solid software programming skills and good university grades.

We can offer you a unique experience developing industry leading products in an international environment. The work will depend on your background, but will contain a mixture of design, implementation and testing.

You can demonstrate outstanding skills in one or more of the following areas:

- C++ programming
- Real-time programming on Linux Operating System
- Networking protocols
- Software architecture and design methods

You have a positive attitude and want to work with an experienced team developing tomorrow's technologies and products. You have good English language skills and will be supervised by our experienced staff.

Send your cover letter, resume and university grades to jobs@appeartv.com by 2. March 2012 or contact John Øivind Saxebøl on +47 2411 9020 for further information.
